WELCOME

1602 Group designs and manufactures realtime network computer systems. Formed from the systems division of Solid State Logic Ltd in 2002, we have 35 years of experience producing pipe organ control systems as Solid State Organ Systems with 16,000 installations in 23 countries. 1602 Group also distributes TiMax Audio Imaging systems in the United States.

We specialize custom electronic manufacturing and supply equipment to other sectors of the entertainment industry from our factory in the UK.
